SAMEER U. REGE

Software QA Engineer **(4.1 YOE)**

+91-**9589186345** | Email: **hire.sameer.qa@gmail.com** | LinkedIn: **linkedin.com/in/sameer-rege**

SUMMARY

QA Consultant with 4+ years of experience in Manual and Automation Testing across Web, Mobile, and **API layers. Proficient in SDLC/STLC, Agile, API Testing (Postman, Swagger), SQL Database Testing, and defect management**. Known for improving test coverage, streamlining processes, and ensuring quality product delivery.

CORE SKILLS

- Performed **manual testing of mobile and web applications** including **functional, regression, sanity, smoke, and exploratory testing** across multiple **Android/iOS devices, emulators, and browsers**.
- Designed and executed **test cases, test scenarios, and test data** from **business requirements, user stories, and acceptance criteria** ensuring maximum **test coverage**.
- Validated **UI/UX, usability, compatibility, localization, and responsiveness** of mobile applications across **different screen resolutions and OS versions**.
- Conducted **API testing using Postman and Swagger**, validating request/response payloads, HTTP status codes, headers, schema, and integration with mobile front-end.
- Logged, tracked, and managed **defects in JIRA**, ensuring clear **bug reproduction steps, screenshots, console logs** for faster resolution.
- Collaborated in **Agile/Scrum ceremonies** (daily stand-ups, sprint planning, backlog refinement, retrospectives) ensuring **QA involvement throughout SDLC/STLC**.
- Automated **basic regression test cases** using **Selenium WebDriver, Java, TestNG, Cucumber (BDD framework)** to reduce repetitive manual effort.
- Implemented **Gherkin syntax feature files** in Cucumber and executed tests via **Maven build tool** integrated with **TestNG reporting**.
- Performed **mobile-specific validation** like app installation/uninstallation, version upgrade, push notifications, background/foreground handling, and network interruption testing.
- Participated in **test planning, requirement analysis, test execution, defect triage, and release sign-off**, ensuring high-quality product delivery.
- Created and maintained **traceability matrices** to map test cases against requirements for better **coverage analysis**.
- Supported **continuous integration and execution** of automated scripts on **Jenkins CI/CD pipeline** for faster feedback.
- Validated **end-to-end workflows** such as **user authentication, payment gateway, order management, and transaction flow** in mobile/web apps.
- Performed basic **data validation using SQL queries** to verify backend database updates and ensure data integrity across modules.

EXPERIENCE

QA Consultant, Inadev India Pvt Ltd (Feb 2025 – May 2025) – Tested loan repayment software for **MLCHC** with manual & automation testing. Designed and executed test cases, validated APIs using Postman.

Freelancer QA Consultant (Mar 2024 – Jan 2025) – Tested **e-commerce CRM** feature integrations

Quire project (**Quality Nest**). API validations via Postman & Chrome DevTools.

Senior QA Engineer, Zyoin Web Technology (Mar 2023 – Oct 2023) – Led QA for Symworld **Logistics** integration with **Symbiz CRM**. Developed API test suites improving coverage.

Senior Test Engineer, TestYantra (Razorpay -Oct 2021 – May 2022) – Automated Payment gateway (Razorpay) using selenium & testNG. Validated payment gateway integration.

Software QA Engineer, Bitlogic Consulting (Apr 2020 – Sep 2021) – Performed E2E testing of **E-commerce Web & Mobile** (**Android**) apps focusing on authentication & role-based access control.

ACHIEVEMENTS
• Improved regression suite efficiency by 25%. • Conducted QA interviews and mentoring.

Certification
- **Learn & hands on Generative AI in Software Testing**.
- **Hands on Software Testing with Jira & Agile.**

EDUCATION
Master of Computer Science (M.Sc.), DAVV Indore – 71% | **LANGUAGES** - English, Hindi, Marathi.
